

## **PRADA RESTYLES ITS MACAO BOUTIQUE IN THE FOUR SEASONS MALL**

Macao, 22 November 2018 - Prada is inaugurating its renovated boutique within the prestigious “Four Seasons” Mall in Macao, relocated and with a fresh style. Covering a total area of 376 square metres, the boutique hosts Prada menswear and womenswear collections, leather goods, accessories and footwear.

The green Aver marble facade frames the two entrances and the large windows, offering an initial glimpse into the sophisticated atmosphere of the space within. The interior is defined by the modern design of the ceiling beams and the black and white chequered floor, an iconic element that recalls the historic Prada store in Milan in Galleria Vittorio Emanuele II.

The area dedicated to women’s collections is characterised by soft seats in green velvet and Plexiglas display counters, while the space reserved for the men’s collections is distinguished by crystal benches and grey velvet seats. Elegant green marble portals connect the rooms. The mood is rounded off with furnishings by 1950s Italian masters of design, including Osvaldo Borsani and Giò Ponti, reproduced exclusively for Prada.
