

SPR07T

This style is MINIMAL BAROQUE at the height of its ornamental power, enriched by hand-applied flourishes of metal. The oversized frames, with a double bridge and gleaming hinges, evoke the exquisite symmetry of butterfly's wings, while the boldly curving temples captivate with spirals and stars for a distinctly feminine allure. Available in five colorways, the palette of neutral hues—Black, Tortoise, and Ivory—is enlivened by vibrant Red and Spotted Tortoise.

SPR23N

A reinterpretation of the iconic original, this redesigned style is defined by its deliberate contrasts and playfully wide profile. Layering nuanced tones with solid-colored acetate for a striking bas-relief effect, the silhouette gains further dimension from artful asymmetry and elaborate curves: a visual echo to the rounded lenses. Available in three colorways, the palette combines Tortoise and Black with Ivory or Red.

SPR08T

Completing the celebration is a freshly sophisticated interpretation of the original model. This new style, in glossy acetate, is MINIMAL BAROQUE at its most refined. Retaining the classic, clean-lined front, its oversized round frames are animated by curling temples made more memorable by a bas-relief effect in two-tone acetate. Available in four colorways, the palette includes Black and Tortoise with Spotted Tortoise, Ivory, and a flash of Red at the temples.
