Words Pierre A. M'Pelé

Big Birds

Josephine Baker's struts, swivels, and audience seductions with ostrich feather boas in the 1920s are the first imagery that come to mind at the mention of the big bird's plumage. Ostrich feathers are synonymous with eccentricity and an ostentatious way of life, hence their *ad vitam aeternam* love affair with fashion. Once in a while, they appear in collections, adding pizzazz to clothes and lifting otherwise basic accessories to new heights. This season, Miuccia Prada fancied a bit of fluff, resulting in an explosion of ostrich trimmings in her S/S 17 show. The 1920s are a constant inspiration for Prada, and this time – despite silhouettes reminiscent of the 1940s and clin d'oeils to the brand's own 1990s aesthetic – the African bird's quill suggested the Gatsby fashion era, sewn onto high-waisted slut-slit skirts, on Capri-pant hems, and on blouses and bra tops. Fabulous feather stoles in pale colours are the ultimate season accessories, exuding modern extravagance and an outspoken frivolity. Ostrich feathers are the sort of artefacts made for the grand entrance, not the timid or hesitant arrival. This is not for the shy woman, so don't bury your head in the sand.

TEN LOVES: PRADA'S CAHIER BAG

There are few things we love more here at Ten Towers than a dinky Prada number. This newest instalment of the Cahier bag, complete with a detachable leather belt and thin metal chain, is an even dinkier and more stripped down version of its predecessor. Predictably, Prada have pulled another beauty from their bottomless hat, one that seamlessly continues from their Fall 2016 collection, with its equally dinky keychain purses and stunning array of shoulder bags. Versatility is the name of the game once again here, this little nugget of calf's leather will look great regardless of whether you're carrying it as a clutch, slung over a shoulder, or my personal favourite, worn around the waist as one of the classier takes on the humble shotter's purse. Given the name however, it would seem as though Prada were hoping for a more studious (and legal) use of their latest creation, and one we wholeheartedly endorse at Ten (cahier is French for exercise book, of course). The truth is everyone needs a bit of Cahier in their lives. Not only as the perfect vessel to carry all that valuable refuse that congregates at the bottom of your bag, but also as a velvety companion that will sit obediently in your palm and sooth the stresses of your day (think "woosaahh" from Bad Boys II). You'll have to wait a little longer for the velvet Cahier of course, but for those of you who simply can't face the ambiguity of said waiting period, the calf version will be available to flaunt during LFW.

Emma Stone In Prada – 10th Annual Women In Film Pre-Oscar Cocktail Party

Emma Stone joined a host of stars for the 10th annual Women in Film Pre-Oscar Cocktail Party on Friday (February 24) in LA.

The Prada look started a double celebration for colour and shimmer.

Her micro-sequin and metallic accented two-piece look created a retro-inspired flawless silhouette which she styled with ankle strap Jimmy Choo 'Tower' pumps.

I've noticed your murmurings about regarding a lack of enthusiasm for Emma's recent style choices. Does this see her back on track?

Silver screen siren! Teresa Palmer shows off her stunning post baby body in a slinky metallic gown at her very first Oscars after giving birth to son Forest TWO MONTHS ago

By [Jade Watkins for Daily Mail Australia](#) PUBLISHED: 23:42 GMT, 26 February 2017

Teresa Palmer attended her very first [Academy Awards](#) on Sunday. And the Australian star certainly made an entrance at the Dolby Theatre in [Los Angeles](#), stunning on the red carpet in a slinky metallic gown. The 31-year-old, who gave birth to her second son Forest Sage just two months ago, went for old Hollywood glamour when it came to her ensemble.

Her thin-strapped silver embellished dress had a distinct vintage feel, and featured an empire-cut on the bodice and a dove-grey skirt with more metallic embroidery. The blonde beauty's slender waist was accentuated by an art-deco style belt and she accessorised with a silver clutch bag and extravagant jewels, including diamond leaf drop earring and diamond rings on her fingers.

Kerry Washington In Prada – 2017 Film Independent Spirit Awards

Kerry Washington attended the [2017 Film Independent Spirit Awards](http://www.redcarpet-fashionawards.com/2017/02/25/kerry-washington-prada-2017-film-independent-spirit-awards/) on Saturday (February 25) in Santa Monica, California.

The 'Scandal' actress donned a Prada black dress with a textural effect, where the playful, quirky side of Prada came out in the dimensional, embroidered bodice that made for quite the dazzling bib.

No need for much further embellishment here, with Susan Foster diamond earrings and Christian Louboutin 'Blakissima' sandals completing the look along with a ponytail to echo that playfulness.

Leggy Jessica Chastain cuts a chic figure in LBD and matching pumps for Pirelli Calendar's beauty panel

By [Dailymail.com Reporter](#) PUBLISHED: 05:35 GMT, 14 February 2017

She is a red carpet staple who never fails to impress at every occasion. And Jessica Chastain did not disappoint on Monday when she made a spectacular appearance in [New York City](#) for Pirelli Calendar Presents: Peter Lindbergh On Beauty. The [Oscar](#)-nominated star served as a panelist during the program and made a wise choice in a dress that complemented her leggy figure.

So chic: The 39-year-old looked elegant in a sleeveless black dress that incorporated white piping on the collar and a zipped-up neckline

Kiernan Shipka In Prada – ‘Mad Men’ Book Launch

Kiernan Shipka attended the ‘Mad Men’ book launch with her co-stars in Beverly Hills, California on Thursday (February 23).

The young actress looked radiant taking on the sleepwear-as-daywear trend in Prada. I love the contrasting shades of blue on this piece, with the exaggerated collar instantly elevating the look.

Effortlessly styling her ensemble with a matching Prada box clutch, embellished sandals and a sleek side-part, this look was an easy win for me.

Those of you who are not fans of the PJ trend, what are your thoughts on this look?
