

## *Miu Miu : Midnight Sparkle*

Imagine a mirrored Art Deco vanity table, sparkling with light and surrounded by soft, dusty pink silks and plump velvets. Intimacy, luxury and comfort are ensured. The atmosphere is poetic and dreamlike and the vision charming and refined.

With this idea in mind, Miu Miu stages its windows into a private and transformative space where friends meet and pass precious time together. The result is a magical, quintessentially glamorous and feminine universe.

Such a dazzlingly reflective tableau is nothing if not the perfect backdrop for Miu Miu's elegant and contemporary *Midnight Sparkle* collection, beautifully showcased in this fairy tale place.

Wardrobe classics include the little black dress in cotton and georgette and languid evening gowns embroidered with crystal in black again, white, blush and sky blue. These are accessorized with an iconic selection of bags in richly coloured, signature matelassé leather, calfskin and python, featuring more jewels, daisy clasps and polished chain handles.

Glitter mules and high, strappy or platform soled sandals finish a look that is as sophisticated as it is ultimately light-hearted.
